

# STRUCTURING A HEALTHY FUTURE

Utilizing the science of BehavioralRx™ and its evidence-based engagement methodology, Concierge Care® personalizes care plans for hospitals, health systems, health plans and pharmaceutical companies.

Using BehavioralRx™ to determine optimal patient engagement methodologies, Concierge Care® can be structured to build valuable population health management solutions. Refer to the table to your right, select a program, and see how the benefits stack up.

## Community Concierge™

Automates the collection of health risk assessment data at health fairs, screenings, and other community outreach events.

## Bedside Concierge™

Provides patients the ability to submit non-clinical comfort requests in their moment of need, ensuring a positive inpatient experience.

## Discharge Concierge™

Enables inpatients to navigate and complete state-mandated care management education prior to hospital discharge.

## Personal Concierge™

Acts as a virtual care coordinator to provide in-the-moment, personalized guidance to help patients navigate their healthcare journey.

Experts in award-winning, personalized patient engagement solutions.
